

## **Welcome to our website**

Rich in a living cultural and natural heritage, the 20 districts around Bourgneuf and Royère de Vassivière have decided to join their resources and talents within the “Communauté de Communes” (association of local authorities) in order to enhance their assets.

Our territory is located in the heart of the Limousin region, which each year attracts more than 10 000 inhabitants from all over France.

This is a land of traditions but also a real welcoming country with both natural beauty and human values.

Economic development, better housing, preserving landscape/wildlife and enhancing cultural heritage, upholding and welcome of population: these politics are today joined projects.

Through this site we can share our challenges and successes with you.
