

Tourism, nature, heritage: our territory and its treasures

The territory has a wealth of natural and historical sites. In fact, some of our districts belong to the “Millevaches en Limousin” regional nature reserve.

In order to preserve the specific features of this territory, we make every effort to restore and maintain this heritage but also to enhance it in order to develop “green” tourism.

You can discover in these sections our most remarkable sites and their history.

More information and brochures are available at the tourist office.
